
Sample Parent Notification Form for Initial Identification of English Learners (For students identified as an Fluent-English Proficient)

Dear Parents:

State and Federal laws require all school districts in California to give a state test to students whose home language is not English. The name of this test is the California English Language Development Test (CELDT). Its purpose is to determine how well each student tested can speak, listen, read, and write English.

Your student has been given the CELDT, and the results have identified him/her as Fluent-English Proficient. This means that your student will be assigned to a regular academic program and will not need special help to increase his/her English skills.

[The district may want to add a sentence to describe the program to which the student will be assigned here.]

You are encouraged to become involved in your student's education. If you have any questions regarding your child's instructional placement, please feel free to contact the school office.

Sincerely,

Superintendent/Principal
